Safety Policy

At Marlyn Chemicals, we are committed to providing a safe and healthy work environment for all employees, contractors, visitors, and other stakeholders. Our goal is to prevent work-related injury and ill health by implementing and maintaining an Occupational Health and Safety Management System that complies with ISO 45001 standards.

Our Commitments:

Leadership and Commitment:

Management at all levels is committed to the development, implementation, and continuous improvement of our Occupational Health and Safety Management System.

Legal Compliance:

We will comply with all applicable legal requirements and other requirements related to our OH&S hazards.

Risk Management:

We will proactively identify hazards, assess risks, and implement appropriate controls to eliminate hazards and reduce OH&S risks.

Consultation and Participation:

We will consult with and encourage the participation of workers and their representatives in all aspects of our OH&S management system.

Training and Competence:

We will ensure that all employees and contractors are properly trained and competent to perform their tasks safely.

Continual Improvement:

We are committed to continually improving our OH&S performance and management system through regular monitoring, measurement, analysis, and evaluation.

Incident Prevention and Response:

We will implement measures to prevent work-related injuries, illnesses, and incidents, and be prepared to respond effectively to such events should they occur.

Safe Handling of Chemicals:

Given our business nature, we place special emphasis on the safe handling, storage, transportation, and use of chemicals.

Communication:

We will communicate this policy to all persons working under our control and make it available to interested parties.

Resources:

We will provide the necessary resources to implement, maintain, and improve our OH&S management system.

This policy will be reviewed annually to ensure its continuing suitability, adequacy, and effectiveness.

 Luke Mc Lachlan
